

# RADU C. ȘTEFAN

First Year Undergraduate Student  
**Academy of Economic Studies, Bucharest**  
Faculty of Management

## PROFESSIONAL PROFILE

I am a dedicated student at the Faculty of Management, within the Academy of Economic Studies, Bucharest, specializing in mathematical analysis and accounting. With a serious and meticulous approach to everything I do, I devote my time to deeply understanding concepts and applying my accumulated knowledge in creative and efficient ways. My academic excellence is reflected in top exam results, including perfect scores in mathematical analysis and accounting. I am recognized for my ability to organize complex information in easily understandable ways, an asset in preparing detailed financial reports and data analysis. My creativity is demonstrated through participation and winning awards in scientific communication sessions, where I have explored topics from European funds to superintelligence and transhumanism. These traits allow me to bring a unique and valuable perspective to any team or project.
